LIGHTING CUSTOMISATION GUIDE

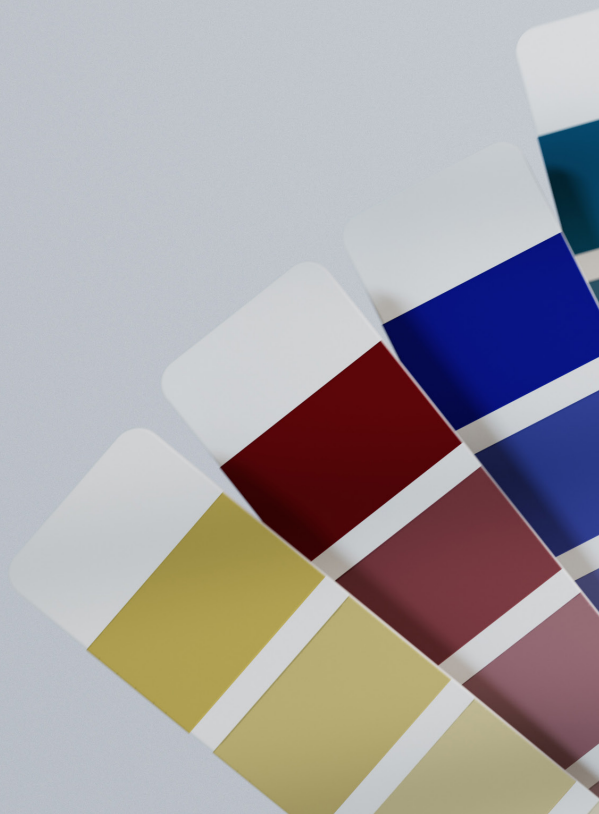

Modular Custom for interior professionals

HOW DO YOU LIKE YOUR LUMINAIRE?

IMAGINATION KNOWS NO BOUNDS. WHY
SHOULD YOUR PROJECT?

Some projects demand more than standard. For those moments, we offer customisable versions of our luminaires, giving you creative freedom. Modify various features and match them with your project's aesthetic, technical and spatial demands.

YOU
?

MODULAR CUSTOM

DIRECT
CUSTOM

PERSONALISATION MADE EASY

With our Direct Custom programme, we've made personalisation simpler and faster.

Direct Custom allows you to customise colours using the RAL or NCS systems and experiment with finishes matt, shiny and structure. On a technical level, you can choose a beam angle, colour temperature and colour rendering index (CRI) to achieve the desired ambience.

With lead times of just 4 to 6 weeks, it's a direct and reliable way to realise your concept, down to the last detail.

Changeable parameters will vary depending on the product you choose.

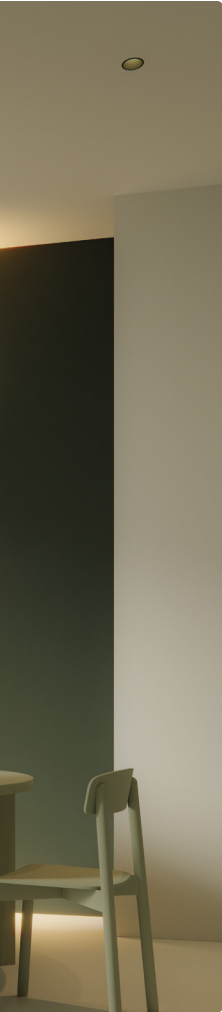

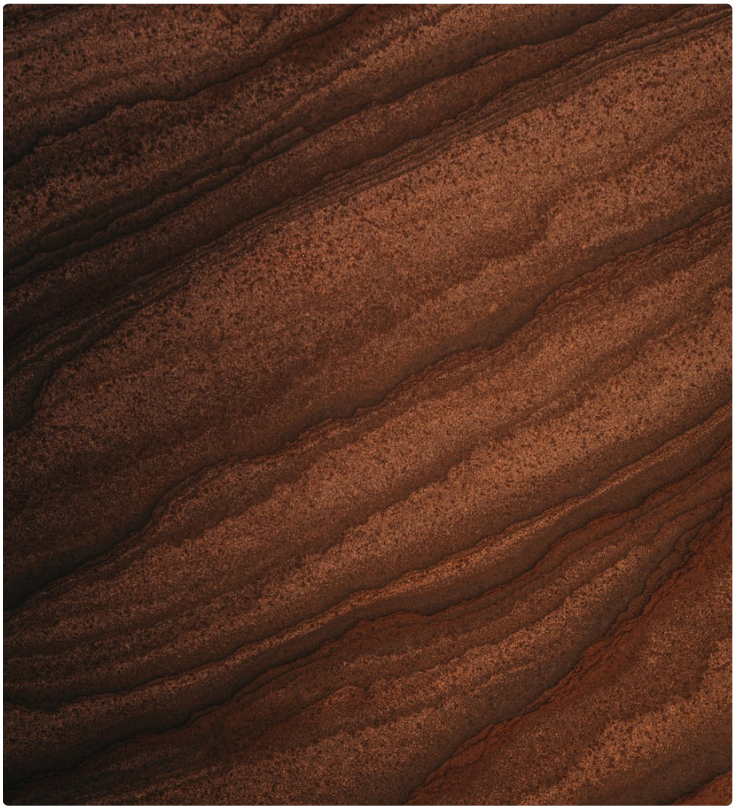

“ At Modular, we believe customisation is not an extra, it’s essential. It empowers architects, designers and creatives to fine-tune lighting to their exact vision.”

SYLVIE DESCHEEMAEKER, PROJECT CARE MANAGER

Discover a growing selection of our most loved luminaires which can change according to your creative vision.

TWO SIDES OF LIGHT

The refined, quality craftsmanship of Chival is highlighted by its special, wall directional light. A light beam up and down, naturally following the vertical shape of Chival. Topped off with a TIR lens (Total Internal Reflection) that is positioned with meticulous care, Chival casts a pure and powerful light beam. With our first wall luminaire including warm dim, you'll enjoy Chival's powerful presence on the wall, as it creates an intimate warm glow.

THE ESSENCE OF POETRY

Create an unexpected experience with light. The interplay of light and shadow is simply shown. This simplicity however is what makes the outcome surprising and beautiful. Impulse Round & Square apply a basic principle resulting in a very warm and poetic effect.

PERFECTLY ROUNDED

A round recessed spotlight, refined down to the smallest detail. The first thing you notice is its subtle Ø72 diameter and delicate trim. But don't be mistaken. Behind this pure circular form lies a comprehensive optical platform, extensive personalisation possibilities and smart engineering beneath the surface.

A CUP WITH CHARACTER

Kup is a refined round recessed spotlight that brings character to the ceiling through its distinctive raised edge and expressive cup-shaped design. Behind its pure Ø72 form lies an extensive optical platform, offering the flexibility to highlight both objects and spaces with precision. Extensive finish and colour personalisation options allow Kup to adapt effortlessly to any interior. Built with a toolless modular construction, Kup is designed for longevity, easy maintenance and future growth.

MINUDE

A STORY FOR EVERY ROOM

MINUDE JUST GOT PERSONAL

Minude steps into a new era, one where you become the co-creator. With new options for finishes, colours and two additional colour temperatures (3500K and 4000K). Whether you want to echo your material palette, contrast your spatial concept, or finetune the mood with precise lighting temperature, Minude is ready to follow your lead.

MODEST

A LUMINAIRE THAT BLENDS IN, YET STANDS OUT

With its clean, circular shape, Modest brings a quiet elegance to any space. But there's more than meets the eye. Modest arrives with a twist: an expanded range of lighting options and a spectrum of colours. Whether you're after consistency across projects or flexibility in design, Modest adapts. Always refined, always reliable.

SMALL AND PLAYFUL

Nyto likes to go unnoticed in a playful way. Now you see it, now you don't. Its subtle cylinder can almost disappear, and as the light goes on, there is it. The smallest version is a surprising 30Ø, while the others go up to 40Ø, 50Ø and 60Ø.

29

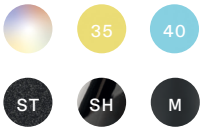

SULFER

WINS EVERYWHERE, FAIR AND SQUARE

THINKING WITHIN THE BOX

Instead of thinking outside the box, with profiles you think within and see how you can use lines and corners to enhance the architectural feel of a space. With several designs to choose from, that combine general lighting and accent lighting, colours and finishes, the choice is yours. All our SLD50, SLD50 Naked and SLD50 High profiles are custom-made based on a user’s needs.

A REDEFINED PROFILE

Straw is the dawn of a new era in linear lighting. A distinctive line that hides all its secrets but that reveals gentle curves. It was designed with a new kind of workspace in mind, one that flirts modern styles, technology and flexibility all at once. And yet, it's so easy to imagine Straw in many other settings... Why not try them all?

ORDER PROCESS

HOW TO ORDER

Ordering a customised luminaire is easy.

Simply [contact our Customer Service team](#) or [request a quote via our website](#).

Minimum order quantities apply:

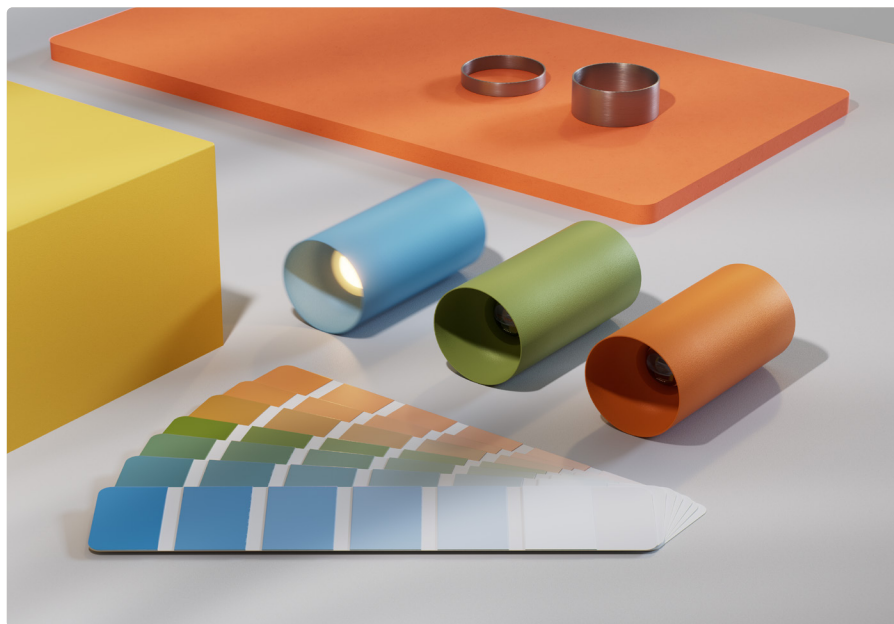

- 10 pieces for ceiling luminaires
- 5 pieces for wall luminaires

Depending on the product type and quantity requested, a small, accessible price adjustment may apply.

On top of that, a standard net set-up charge of €50 (excl. VAT) is applied per colour and finish: matt, shiny or structure.

However, if your order includes 20 pieces in the same colour and finish - regardless of luminaire type - the charge is waived.

Please note: for profiles, the set-up charge always applies.

45

LOOKING FOR MORE

If you have a specific requirement that is not listed among the customisable parameters, we can still have you covered. Our Project Care team is open to all ideas and will confirm the feasibility and pricing directly with you.

Book a consultation and tell us all about your vision.
